

# PIONEER® Y SERIES HYBRID 43Y23 (RR)

## THE PROVEN HIGH YIELDING HYBRID OPTION FOR QUICK RETURNS

**Pioneer® 43Y23 (RR)** is the earliest maturity Y series hybrid with the Roundup Ready® technology. Sets the industry benchmarks on shatter tolerance in the field and high yield for maturity. Exceptional hybrid vigour helps to deliver effective weed control results in low and medium rainfall growing zones.

### AGRONOMIC PROFILE

Maturity	Early season (3)
Recommended growing regions	Low and medium rainfall zones
Yield potential and adaption	Very high / target >0.75 to 2.5 t/ha yield range
Blackleg rating	R*
Blackleg resistance group#	B
Plant vigour	Exceptional
Plant height	Medium
Crop standability	Excellent
Grain oil content	High
Grain test weight+	Excellent

\* Blackleg resistance rating with standard BetaStrike® seed protection.  
 # Provisional resistance group classification from 2012 GRDC screening.  
 + Minimum canola trading standard is 62 kg/hl [Australian Oilseeds Federation].  
 Smaller grain rejectable under this limit.

### KEY FEATURES

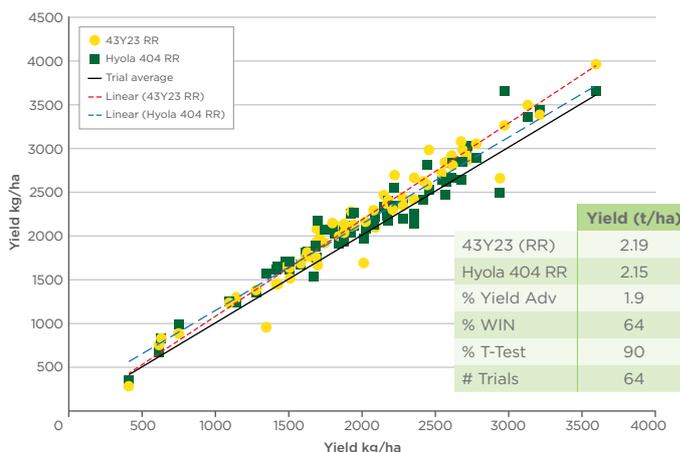

- Proven consistency in top-end yields over a wide range of growing conditions.
- Recommended planting option in low and medium rainfall growing zones. A better option for managing weeds and herbicide resistance than TT canola varieties without compromising vigour and yield potential.
- Early maturity (3) with time to flowering up to 4 days quicker compared to 44Y24 (RR).
- Shorter plant stature, outstanding standability and shatter tolerance aids ease of management where crops are windrowed or direct headed. Grain size is uniform and large.
- Excellent blackleg resistance - [R], genetically different for blackleg group rotation.

### THE RESULTS

#### Pioneer research and GRDC NVT combined (2011 and 2012)

Average of all locations where both products were present (64 locs)

**\$23.21 per hectare extra income** vs Hyola 404 RR.

# Pioneer research and GRDC NVT trials combined in 2011 and 2012 (average across ALL locations) - NSW (17 locs), VIC (19 locs), WA (28 locs). Gross income based on price of \$550 per tonne.

PIONEER HAS A STRONG REPUTATION FOR PRODUCING CONSISTENT SUPPLY OF HIGH QUALITY HYBRID SEED, SO YOU CAN PLANT ON TIME, EVERY TIME TO MAXIMISE YOUR YIELDS AND ECONOMIC RETURNS.
