

2009-10

# Pioneer® brand hybrids for Food Corn Processing

This is the North America **Yellow Food Corn (YFC)** and **White Food Corn (WH)** list of Pioneer® brand hybrids. Pioneer began developing superior food-grade corn hybrids over fifty years ago. ALL Pioneer food-grade hybrids are characterized for traits that food processors demand, such as kernel texture, color, size, and ear rot diseases (Fusarium, Gibberella, Diplodia). Please check with your local Pioneer sales professional for availability of specific hybrids from this list in your local area.

## FOOD-GRADE YELLOW (YFC) AND HARD TEXTURED HYBRIDS
