

SORGHUM

A SEED TREATMENT INSECTICIDE FOR SORGHUM PROTECTION

A novel systemic commercially applied seed treatment insecticide, Cruiser® brings sorghum growers superior early-season protection against some of their most yield-limiting insect pests. With an excellent seed safety margin, Cruiser delivers outstanding performance from day one to help improve stand establishment and vigor, and enhance yield potential.

Insects Cruiser Is Active Against

- Chinch bug
- Greenbug
- Yellow sugarcane aphid
- Corn leaf aphid
- Wireworm
- Seed corn maggot
- Imported red fire ant

Performance Advantages

- Helps enhance plant stand and vigor, and protect yield potential.
- Works in variable weather conditions, and requires less moisture to activate than Gaucho®.
- Effective at low rates, reducing stress on young seedlings.
- Excellent crop, worker and environmental profile.
- Convenient, in-the-bag, ready-to-plant protection.

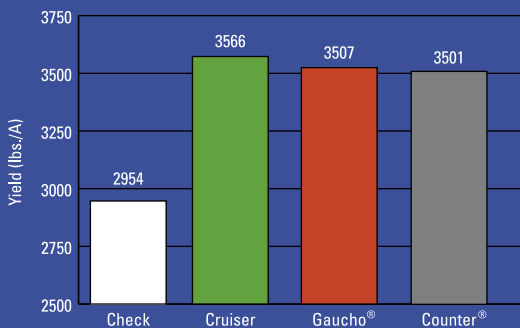

Performance Advantages (cont.)

- Protects against targeted pests with minimal risk to beneficial insects.
- Compatible with Maxim[®] and Apron XL[®] seed treatment fungicides, and Concep[®] III herbicide seed safener.

Use Rates

Apply at 5.1 fl. oz per 100 pounds of sorghum seed. Cruiser is available for sorghum growers as treated seed from their seed company.
