## Take your Pioneer<sup>®</sup> brand hybrids to the next level with new Cruiser Extreme<sup>®</sup> 500 insecticide and fungicide seed treatment.

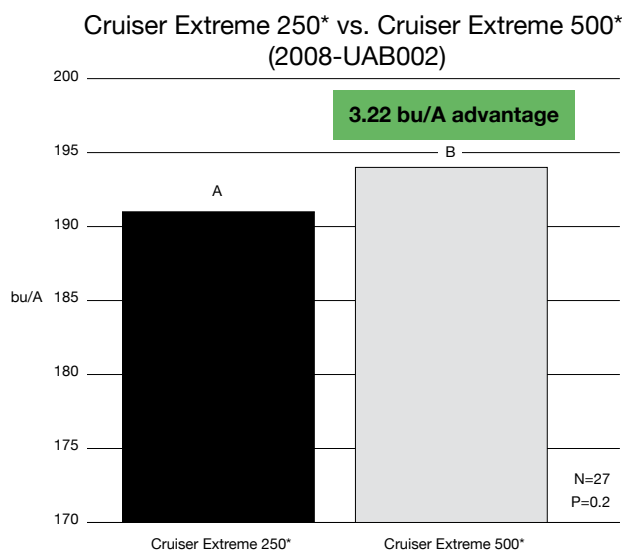

Cruiser Extreme<sup>®</sup> 500 seed treatment combines Cruiser<sup>®</sup> seed treatment insecticide at double the rate for enhanced insect protection with the most robust seed treatment fungicide package on the market. Cruiser Extreme 500 is a seed company-applied promotional combination of four active ingredients that deliver .5 mg ai/seed of Cruiser (thiamethoxam) plus three fungicides: Maxim<sup>®</sup> XL (Maxim + Apron XL Premix) plus Dynasty<sup>®</sup>. According to the manufacturer, Cruiser Extreme 500 protects against a broad spectrum of early-season insects and diseases, helping to increase stands, vigor and ultimately yield potential.

### Advantages:

- More consistent performance on labeled insect pests.
- Enhanced length of control.
- Superior protection against wireworm and grape colaspis under moderate to heavy pressure. Improved protection against white grub.
- Improved protection against tough pests like chinch bug.
- Increased plant performance and higher yield potential.
- For an excellent defense package against cutworm, Pioneer recommends using Cruiser Extreme 500 in combination with HERCULEX<sup>®</sup> XTRA Insect Protection.
