

## About Pioneer

Pioneer Hi-Bred, a DuPont business headquartered in Des Moines, Iowa, is the world's leading developer and supplier of advanced plant genetics, providing high-quality seeds to farmers around the world. Pioneer provides agronomic support and services to help increase farmer productivity and profitability and strives to develop sustainable agricultural systems for people everywhere.

Pioneer sells high-quality seed products in more than 90 countries worldwide. The business markets and sells hybrids or improved varieties of maize, soybean, sunflower, canola, rice, sorghum, alfalfa, cotton and wheat, as well as forage and grain additives. Globally, Pioneer sells products through a variety of organizations, including wholly owned subsidiaries, joint ventures, sales representatives, and independent dealers.

We believe superior research is essential to achieving crop improvements in today's complex and competitive environment. More than 3,000 researchers develop seed products for worldwide markets. Pioneer operates more than 100 research locations around the globe which are involved in developing and testing new products.

Our future and the future of agriculture depend on leading with purpose, strong core values and people who are focused on making a difference. This is something Pioneer has always believed in and is part of how we do business. Our commitment to agricultural leadership is demonstrated by developing and promoting superior industry standards, using new technology to provide our customers with the best products, while also preserving biodiversity. We also look for opportunities to use our knowledge of plant technology in collaborative projects that help alleviate hunger and improve farmer profitability. These practices span across our industry and around the globe. Science with Service Delivering Success™.
