

Jerry Flint, Ph.D., Vice President, Biotech Affairs and Regulatory

Jerry Flint is vice president, Biotech Affairs and Regulatory, with responsibility for Pioneer product stewardship; biotech and regulatory affairs; regulatory science and compliance; registration; government and industry relations; community investment; and sustainable agriculture and development.

Jerry was named to his current position, vice president of Biotech Affairs and Regulatory, in 2011. He is a member of the Pioneer Enterprise Leadership Council. Throughout his career Jerry has enjoyed the challenge of working with growers, scientists, and those within the agriculture industry to bring new technology to growers.

Jerry joined Pioneer in 2010 as senior director, registration and regulatory affairs. In this role he was responsible for developing regulatory processes and policy for ag biotechnology products in North America, Europe, Latin American and Africa. Jerry has more than 20 years experience in the industry.

Jerry is a member of leading industry associations, serving on the Crop Life International Plant Biotech Strategy Council and the Biotechnology Industry Organization Food and Ag Section Governing Board. He is chair of the International Executive Committee of the American Seed Trade Association, and a member of the International Seed Federation, and the Seed Association of the Americas.

Jerry earned a Bachelor of Science in agriculture from Purdue University. He attended the University of Kentucky where he received a Master of Science and doctorate in crop science.
