

# NEXTA™ » STAND

NEXTA STAND accelerates root development, promoting bigger and more robust plants that are more resilient to stress – increasing plant productivity and yield potential. Strategically formulated to ignite robust plant growth and optimize yield, NEXTA STAND increases the levels of naturally occurring hormones to improve essential plant functions to optimize the plant's growth potential. NEXTA STAND is a CFIA registered yield stimulant and plant growth regulator.

## Crops\*:

Corn, potatoes, soybeans, cereals

## Product Features and Benefits:

- Contains a patented formulation of four critical plant growth hormones – Cytokinin, Gibberellic acid (GA), and Auxins (IBA and IAA).
- The only biostimulant that contains four plant growth hormones – strategically formulated to enhance plant growth and development by stimulating cell division, cell differentiation and enlargement, nutrient uptake and nutrient utilization.
- Accelerates and increases root and shoot development, improving plant competitiveness to boost plant growth, maximize crop potential.
- Built with the highest quality ingredients, resulting in guaranteed analysis of actives for consistent performance, extensive tank-mix compatibility.

\*see label for additional crop registrations

## Ingredients:

Cytokinin, as kinetin	0.009%
Gibberellic acid	0.005%
Indole-3-butyric acid	0.005%
Indole-3-acetic acid	0.005%

## Recommended Application Timing:

Start (Seed Treatment)

Grow (Foliar at herbicide timing)

## Application rate:

Seed treatment rate: 65 mL / 100 lbs of seed

Foliar rate: 125 mL/ac – 250 mL/ac

## Water Volume:

Ground: 20 L/ac – 40 L/ac (5 – 10 US gal/ac)

Aerial: 10 L/ac – 20 L/ac (3 – 5 US gal/ac)

## Product size:

2 x 10 L case

1,000 L tote
