

NEXTA™ >> SHIELD

From the moment a plant germinates, it is challenged with abiotic stress, such as cold, heat, hail, excessive rain, frost, and drought. When a plant is stressed it focuses its energy on survival, not on reproduction growth to optimize yield. NEXTA™ SHIELD provides plants specific nutrients to help plant growth through abiotic stressors. Crops under stress yield less. NEXTA™ SHIELD helps to overcome abiotic crop stress and optimize yield.

PRODUCT FEATURES/BENEFITS

Fends Off Yield-Robbing Abiotic Stress

Building stronger, healthier plants is a key step to produce consistent yield across every acre. By optimizing nutrient utilization and mitigating abiotic stress, NEXTA SHIELD allows plants to focus more of their energy on yield-enhancing physiology and reproduction.

Facilitates Recovery From Injury

NEXTA SHIELD can be applied to abiotically stressed or injured plants to optimize recovery and improve abiotic stress tolerance throughout the growing season.

Research and Field-Proven

Positive Yield Response

Our field trials have shown an impressive bump in yield across various crops. Talk to your Corteva Biologicals Innovation Specialist for more information.

ACTIVE INGREDIENTS

Total nitrogen (N)	3.0%
1.0% urea nitrogen	
2.0% ammoniacal nitrogen	
Soluble potash (K_2O)	1.0%
Cobalt (Co)	1.0%
Molybdenum (Mo)	1.0%

RECOMMENDED FIELD APPLICATIONS

Soil

Foliar

Irrigation

CONTAINER SIZE

2 x 2.5 gallon

275-gallon mini bulk

This reference guide is not intended as a substitute for the product label for the product(s) referenced herein. Product labels for the above product(s) contain important precautions, directions for use, and product warranty and liability limitations, which must be read before using the product(s). Always read and follow all label direction and precautions for use when using any product alone or in tank-mix combinations. This product is not for sale or use in all states. Contact your state pesticide regulatory agency to determine if a product is registered for sale and use in your state. Conduct a "jar test" using all products in proper proportion in order to establish physical compatibility. Many factors contribute to crop performance and return on investment. The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the manufacturer nor the seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Corteva Biologicals products are designed to help plants function more efficiently and are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential. ©2024 Corteva Agriscience. NXSHLDSS (09/24)
