

NEXTA™ SWOLE

NEXTA™ SWOLE increases the rate of sugar transport from leaves to flowers, ears, seeds, pods, to increase available sugar and seed size for higher yield. NEXTA SWOLE is a yield stimulant and an EPA registered plant growth regulator.

PRODUCT FEATURES/BENEFITS

- Provides available forms of boron and molybdenum
- Reduces excessive vegetative growth due to high nitrate nitrogen levels
- Mixes well with most herbicides, fungicides and insecticides
- Significantly increases ear and pod fill as well as the amount of sugar available for uniform seed and kernel sizing
- Contains cytokinin for improved seed size and test weight
- Enhances source to sink relationship in plants, shifting movement of sugars to developing seed, resulting in higher yield
